

Product data sheet

IQ lock C DL

Mechanical contact lock with feedback contacts for double leaf doors

Product features

Mechanical self-locking ensures automatic crossbar projection every time the door is closed
Active leaf is unlocked by triggering the passive leaf (full panic function)
Divided cross latch prevents the bolt blocking even under sideload
Integrated feedback contacts make complete monitoring of the door possible
Optional sabotage monitoring or cylinder contact
Activation of emergency exits secured by emergency exit systems possible without key switch
Locking in accordance with insurance requirements guaranteed
Small rear backset and small dimensions of the lock case

Application Areas

Double leaf emergency exit and panic doors (left hand door and right hand door)
Doors along escape and rescue routes
Fire and smoke protection doors

Product Data Table
