about
big **solutions.**

Let's talk about your challenge!

Realising buildings in harmony with people and the environment is a great task. We help you to fulfill this task optimally. Because we free you up to concentrate on what really matters.

Because we are already thinking about the developments of tomorrow on your behalf. Because we ensure that your projects really move forward. And because we put your needs at the heart of everything we do.

This allows us to develop specific solutions for your challenge – without losing sight of the big picture. We start by listening carefully to what you have to say. We look forward to hearing from you.

**You are at the heart of
everything we do.**

**That's why we
start by listening
to you.**

**FIND OUT WHAT
COMFORT AND SAFETY MEAN**

And the difference experience makes

We have been moving the built environment since 1863 – and we are synonymous with workmanship, comfort and design around the world. With our wealth of experience and our network of experts, we continuously develop new products and solutions for the latest challenges of the markets. We give you two things: the security that comes with knowing the best experts are always working on your behalf – and the freedom to concentrate on what really matters. Throughout every phase of your project.

FERRETTI DOMUS

Planning and design

Construction projects are becoming increasingly complex. We make things simple for you by taking on planning tasks as required and providing you with customised support thanks to our expertise.

Installation and assembly

Our excellent products improve the quality of every building. This is why we provide comprehensive support for installation and assembly in the form of well-founded information and holistic care.

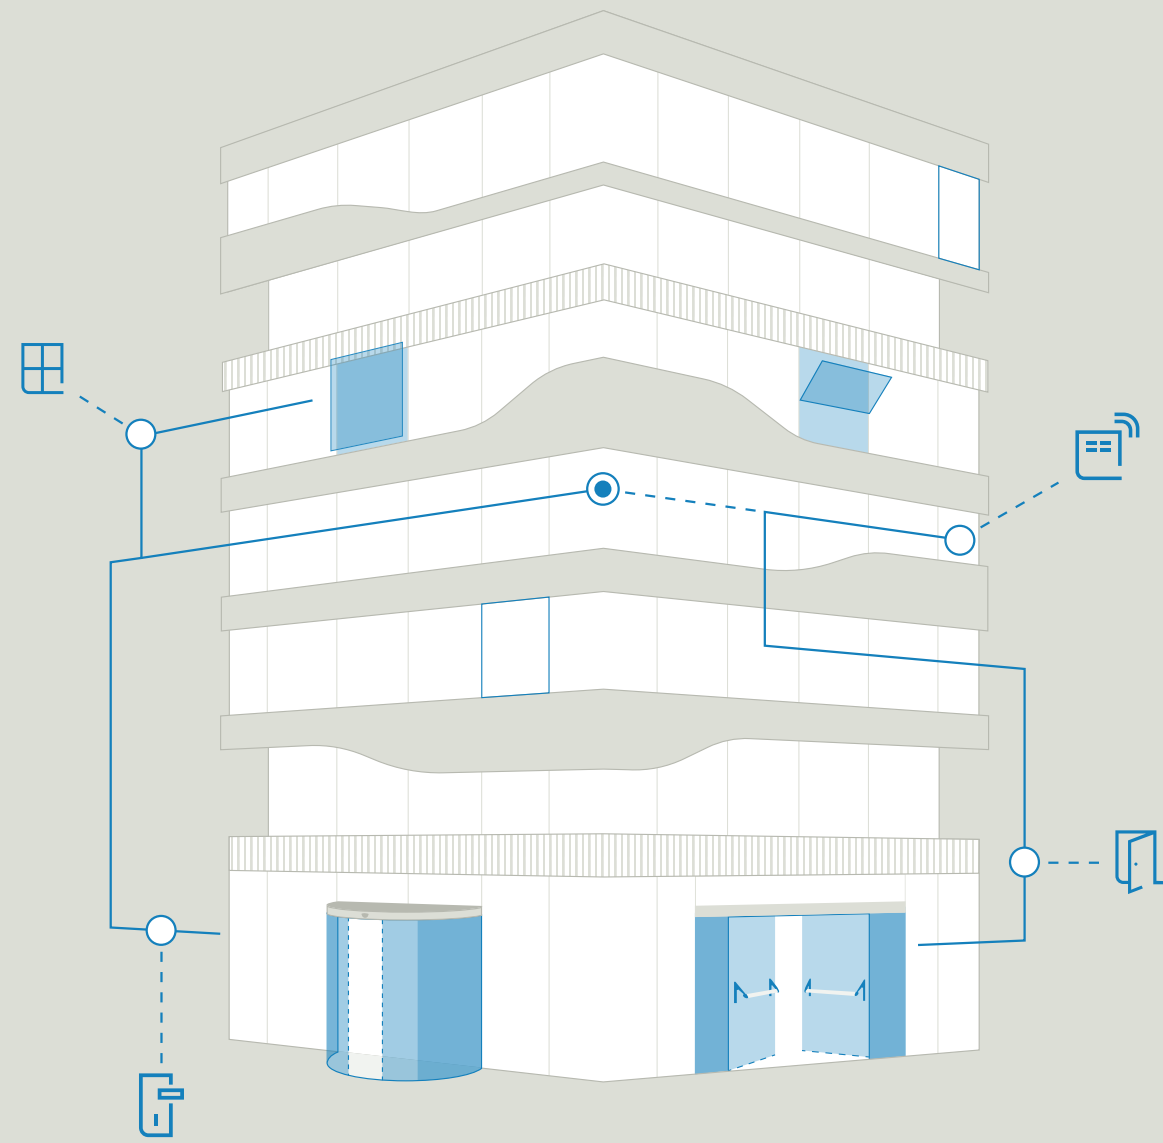

Services and maintenance

Our aim is for our products and solutions to inspire you and ensure your long-term satisfaction. This is why we place great value on active support and a comprehensive service offering.

Tomorrow's technologies today

INNOVATIVE SOLUTIONS FOR YOUR BUILDING

Windows

GEZE window systems significantly increase the comfort and safety of buildings while also reducing energy consumption and offering a wide variety of visual and functional options. The product range extends from drive systems for natural ventilation through to complete solutions (smoke and heat extraction) for preventive fire protection.

Building automation

Automation makes your building a better place to be: more comfortable, safer and more energy-efficient. Indispensable in larger buildings, it facilitates the monitoring and operation of all building technology. We offer unique networking services for the efficient management of smart buildings.

Safety systems

GEZE safety technology leads the way when it comes to preventive fire protection, access control and protection against theft in escape and rescue routes. For each of these objectives, GEZE offers individual solutions and perfectly coordinated concepts that integrate the respective safety requirements within an intelligent system.

Door systems

GEZE door systems open up a vast range of options for door design. They are characterised by state-of-the-art, innovative and efficient drive technology, safety, ease of access and first-rate universal drive design.

We also train and develop your employees.

THE GEZE TRAINING CENTRE

We share our expertise so you can multiply your success

Quality depends to a large extent on the qualifications of the employees involved. This is why we offer a wide range of different training courses and seminars on our products, current topics from the industry and new standards and guidelines. And we develop collaborative solutions for the future and for the success of your projects.

You work with the experts IN OUR INTERNATIONAL NETWORK

UNITED IN TRUST

Our local teams

In a globalised world, the built environment is growing at a rapid pace. Our experts form a tightly-knit network with a presence wherever you are, so we can supply you with our solutions quickly and reliably. We have more than 3,300 employees at 32 subsidiaries around the world. We trust each and every one of them.

And our customers feel the same.

On the page opposite, three of them set out good arguments for harnessing our expertise for your benefit.

“Excellent care during every phase.”

As a strategic partner, GEZE delivers outstanding products and, in particular, top solutions.

Vidriería Bia S. A., Uruguay

Yoselin Bia
Director

— **GEZE turns exciting projects into a walk in the park.** Delivering and installing the break-out doors for the extension of Uruguay’s most luxurious shopping centre in Montevideo was a huge challenge. With reliable support from GEZE Iberia, we were able to master it without any difficulties. Thanks to their high degree of expertise and attention to detail, the experts assisted us during all of the key process phases – from designing the doors and training employees through to assembly and functional checks. A winning combination for all concerned!

PONZIO POLSKA Sp. z o.o., Poland

Jacek Meller
Commercial Director

— **A metamorphosis of synergy and likeability.** We have been working with GEZE for a number of years. During this time, our high standards in terms of reliability and quality have always been met in full. In particular, the intelligent combination of a broad product range and professional, technical and commercial support allows us to satisfy all of our customers’ requirements quickly, accurately and at all times – no matter how complex they may be. I can highly recommend working with GEZE.

“Working together to make the complex simple.”

The product range and the fact that we work with highly qualified experts make our partnership with GEZE a true asset.

“The start of a successful partnership.”

Our pilot project with GEZE was convincing in every respect.

HBG-Corp, Spain

Carlos Mendez Duran
Project Manager

— **We enjoyed excellent cooperation right from the start.** As we had only heard good things about GEZE, we commissioned the company to manufacture the automatic revolving and sliding doors for one of our projects. The products hugely upgraded the building thanks to their seamless design, quality and functionality. And as GEZE also demonstrated exemplary reliability when it came to delivery, we have no reason not to give them additional orders and follow-up projects.
