

Product data sheet

WTH

Remote control for activating GEZE automatic doors and window drives via the GEZE wireless programme

Product features

Combined activation of doors and windows using a remote control
Encrypted communication via rolling code with up to 74 trillion code combinations
Custom and reliable teach-in to exclude unauthorised activation
Available in 1, 2, or 4 channel versions
Doors can be controlled over great distances even through walls
With two outputs to which individual radio receivers can be taught in
Integrated dip switch for selecting different modes of operation, e.g. press the button briefly for "open door" and press button longer for "hold door open"
LED function indicator for battery and transmission check
Radio range up to 30 m inside the building

Application Areas

Activation of GEZE automatic doors and window drives via the GEZE wireless program
Activation of smoke and heat extraction systems (RWA)
Components can be activated wirelessly in a system concept individually, together, or in groups

Product Data Table

Productname	WTH remote control
CE tested	Yes
Transmission frequency	433.93 Mhz
Height	51 mm
Overall depth	78 mm
Depth	15 mm
IP rating	IP54
Operating temperature	0 °C - 50 °C
