

Product data sheet

WRM-24B

Receiving module for activating automatic doors and window drives with 24 V DC

Product features

Encrypted communication via rolling code with up to 74 trillion code combinations

Simple teach-in of the receiver via learn button with acoustic feedback

Up to 85 radio transmitters can be taught

Integrated dip switch to select different modes of operation

Pulse mode, pulse and continuous mode, deadman mode, or self-locking mode

Smallest housing dimensions for integrated installation within a flush-mounted box

Two outputs for individual connection possibilities

24 V DC operating voltage

IP rating IP54

Application Areas

Activation of GEZE automatic doors and window drives via the GEZE wireless program

Surface-mounted installation

Protected exterior area

Product Data Table

Productname	Receiving module WRM-24B
CE tested	Yes
Transmission frequency	433.93 Mhz
Overall depth	80 mm
Depth	35 mm
IP rating	IP54
