

Product data sheet

THZ Comfort

Emergency power supply unit in a robust metal casing with illuminated RWA button and ventilation switch for small smoke and heat extraction systems

Product features

- Compact and attractive design with a very sturdy metal housing
- Integrated illuminated RWA and ventilation button for more safety
- Adjustable background illumination of the RWA button
- Safety and reliability confirmed by VdS and TÜV certification
- Maximum flexibility thanks to comprehensive parameter setting possibilities
- Quick and easy commissioning with the GEZE ST 220 service terminal
- Reduced installation effort thanks to integrated push buttons

Application Areas

- Smoke dissipation in stairwells
- Connection possibilities for smaller RWA solutions
- Control of electromotive 24 V DC drives for smoke and heat extraction in the event of a fire
- Control of a controlled natural ventilation

Product Data Table

Product features	THZ Comfort
Dimensions	140 x 248 x 85 mm

Accessory

Product name

- SHEV button FT 4, VdS approved
- vent switch LTA-24-AZ
- Rain and wind control
- Smoke detector RM 1003
- SHEV button FT4 K
- Heat detector WM 1005
- vent switch/button LTA-LSA
- E 70 room thermostat
- SCT key switch
- WRM-24 receiving module
- Receiving module WRM-24B
- WTH remote control
- Transmitting module WTM
