## E 212

Electric linear drive for automation of slimline fanlight openers

### Product features

- Cost-effective and simple motorised solution for activation of several scissors
- The slim and discreet look perfectly integrates into the façade design
- Opening width can be variably adjusted over the stroke length and can be set as required
- Limit switch and drive protection have been installed and are adjustable
- Completely pre-mounted assembly groups facilitate installation

### Application Areas

- Automatic operation of the GEZE fanlight electric strikes OL 90 N, OL 95 and OL 320
- Natural ventilation (24 V or 230 V design) in the façade area
- Inward-opening bottom-hung casements
- Automation of louvre windows
- Installation on wooden, plastic or metal windows
- Frame installation

### Product Data Table

Product features	GEZE E 212
Height	30 mm
Current consumption	0.4 A
Power consumption	90 W
Temperature range	-20 °C 60 °C
IP rating / protection rating	IP42

### Accessory

#### Product name

- Synchronising unit for GEZE electric drives with 24 V
- Synchronising unit for GEZE electric drive E 212 R1 230 V
- GEZE safety scissor no. 35
- GEZE safety scissor no. 60
- Synchronising unit for GEZE electric drives E 212 R 230 V
