

Product data sheet

GC 171

Wireless module for wireless connection of wireless components to GEZE hold-open systems

Product features

- No cable connection needed between the lintel-mounted detector and the ceiling-mounted detector or manual trigger switch
- Simple connection of the wireless components
- Connection of up to six wireless devices
- Mixed installation (wireless/cabled) possible
- Low service costs thanks to long battery life of five years

Application Areas

- Installation in listed buildings without structural changes (cable routing)
- Retrofitting or expansion of existing systems
